EDUCATION

Trent University

B.Sc. in Mathematics, 2024-2026

Fanshawe College of Applied Arts and Technology

Advanced Diploma in Computer Programming and Analysis, 2020-2023

Volleyball Canada

Canadian National Excellence Program, 2017-2020

Fanshawe College of Applied Arts and Technology

Diploma in General Arts and Sciences, 2015-2017

WORK HISTORY

Security

The Social | Present

Screen legal documentation, verify identification, and manage guest entry with a high standard of compliance while coordinating smooth access for reservations and high-profile guests.

Office Manager & Software Engineer

QuickQr | 2024

Built automation for a Django REST API QR platform so schema changes flowed through the wider system automatically, saving hundreds of hours of manual rework. Managed payroll, bookkeeping, and QuickBooks operations to ensure staff were paid accurately and on time, including holidays, then developed an internal QuickBooks-like tool tailored to company workflows.

Software Engineer

Reload Strathroy | 2023

Developed a large-scale automation and analytics tool that pulled vehicle listings from hundreds of websites, analyzed pricing across markets, and helped identify the cheapest make-and-model opportunities across North America.

Security

The Ceeps and Barney's | 2023

Maintained a safe venue environment by monitoring crowds, resolving issues professionally, and working closely with staff to enforce entry, safety, and capacity policies during busy service hours.

Software Engineering Intern

Perimeter Institute for Theoretical Physics | 2022

Created a mosaic-generation tool that rendered names using black hole image data and automated a custom email response workflow tied to inbound messages to the institute, turning a timely public outreach idea into a scalable process.

Software Engineering Intern

A & L Laboratories | 2022

Automated a daily agronomy reporting workflow that collected reports, routed specific data to chemists, captured returned lab data, and produced finished outputs, eliminating roughly four hours of morning manual work each day.

Game QA Intern

BetaDwarf | 2021

Brought more than 4,000 hours of hands-on game experience to testing, helping the team surface gameplay issues, improve balance, and refine player-facing design.

Seasonal Associate

Walmart | 2020

Worked as an essential frontline employee during the COVID-19 pandemic, supporting customers and maintaining stock flow in a high-volume retail setting.

Professional Athlete

Volleyball Canada | August 2017 - March 2020

Represented Canada in elite international competition, balancing high-performance training with team execution, discipline, and consistent results under pressure.

Clinic Intern

Fowler Kennedy Sports Medicine Clinic | 2019

Supported clinical staff with athlete care, treatment preparation, and rehab tracking in a fast-paced sports medicine environment.

CERTIFICATIONS

Standard First Aid & CPR (Level C) - Canadian Red Cross

Private Investigative License - Ontario Ministry of the Solicitor General
